Polish Notation

+ab Prefix
a+b Infix
ab+ Postfix

- In C we write infix but C does not evaluate infix -

~~We write~~ or using Post Fix Because it works seq.

We can use Stack For digits But No Need

"We must use Stack For digits if we will use unary op."

till now, we cannot use our structure with 2 Different types.

the Sol we can use till now:

customize "Stack.h"

Switch active cases

"In C++ Polymorphism is Best Sol."
